WORK EXPERIENCE

Upwork

April 2022 – July 2023

AI/ML Engineer

I've spent one and half year building and deploying machine learning, deep learning, and computer vision projects, particularly during my freelancing career. I create AI solutions to solve complex problems for clients.

P-TechFusion

(ProgrammX)

July 2023 - Jan 2025

AI/ML Engineer

During my time at P-TechFusion, I gained hands-on experience working on advanced NLP projects, including large language model(LLM) applications, AI Automation(Zapier) Retrieval-Augmented Generation (RAG), and LLamaIndex. I also contributed to object detection systems, further expanding my expertise in AI-driven solutions and cutting-edge technologies.

Prismatic Technologies

Limited

Jan 2025

AI/ML Engineer

AI/ML Engineer at Prismatic Technologies with hands-on experience in developing intelligent systems using LangChain and AI Agents. Skilled in LLM fine-tuning, custom chatbot development, and automation workflows that optimize business operations and enhance user engagement.

EDUCATION

Comsats University Islamabad

2018 - 2022

Bachelor of Science (BS) in Electrical Electronics Engineering

SKILLS SUMMARY

- **Languages:** Python
- **AI Frameworks:** Scikit-Learn, PyTorch, Tensorflow, FastAPI, LangChain, LlamaIndex, Hugging Face Transformers, OpenAI/ Groq, OpenCV, YOLOv8/YOLOv5.
- **Automation Tools:** CrewAI, Zapier, MLflow, n8n.
- **Platforms:** Visual studio code, Jupyter Notebook, claude anthropic, LLM Studio, Google Colab
- **MLOps:** Github, MLflow, DVC, BentoML, AWS SageMaker

CERTIFICATES

- AI For Everyone(DeepLearning.AI)
 - Mathematics for Machine Learning and Data Science
 - Machine Learning Specialization(DeepLearning.AI)
 - Deep Learning Specialization (DeepLearning.AI)
 - Natural Language Processing Specialization (DeepLearning.AI)
 - AI Engineer MLOps Track: Deploy Gen AI & Agentic AI at Scale (Udemy)
-

PROJECTS

- Developed a RAG-based Email Automation System using FAISS, LangChain, and Groq API for intelligent client communication.
- Built a Custom LLM Chatbot with memory and document retrieval using FastAPI and llama-cpp-python.
- Created an AI Voice Assistant (Verbi) integrating speech-to-text, LLM response generation, and text-to-speech.
- Developed a Multilingual AI Voice Bot with Wav2Lip for lip-synced avatar-based speech generation.
- Designed LangGraph-based AI Agents for multi-step workflow automation and contextual reasoning.
